Market Commentary

DPLK Generali Equity Bravo recorded performance of +6.15% in April 2022. The JCI recorded a performance of +2.23% mom in April 2022, rising from 7000 to the 7200 level. The positive performance this month could be attributed to the following. Firstly, the rising global export commodity prices (e.g., coal and nickel) boosted Indonesia's trade surplus to USD 9.33 billion in Q1 2022 (compared to a surplus of USD 5.52 billion in Q1 2021). In addition, there was a large foreign net buy of about IDR 40.87 trillion that supported the overall capital market. The allowed Mudik (Homecoming) and public holidays showed that the Government was confident in Indonesia's faster economic recovery. Thus, these two factors might have contributed to the positive growth in the stock market, as represented by the following shares (e.g., BBRI 4.51%, BMRI 13.29%, ASII 15.21%, EMTK 22.04%, BBNI 11.982%, MDKA 17.00%, UNTR 18.59%, ADMR 19.21%, ADRO 24.16%, ISAT 35.27%).

Market Commentary

DPLK Generali Fixed Income Bravo recorded performance of -0.92% in April 2022. In April, the 5-year government bond yield rose sharply from 5.686% to 6.315%, and the 10-year yield from 6.850% to 6.998%, in anticipation of the FED tapering-off. To combat the rising US inflation, the FED will continue raising its rates and reducing its balance sheet by USD 95 Bn per month, starting May 2022. This signaled to the market participants that BI might soon follow suit, thus the bond market prices sank. Nonetheless, BI still maintained its rates at 3.5% considering the mild inflation rate (April CPI of Indonesia 3.47 % YoY vs USA 8.3% YoY) and the exchange rate weakened to around USD/IDR 14,525.

Market Commentary

DPLK Generali Money Market Bravo recorded performance of +0.22% in April 2022. The BI Board of Governors Meeting agreed on 18th and 19th April 2022 to hold the BI 7-Day Reverse Repo Rate at 3.50%, while also maintaining the Deposit Facility (DF) rates at 2.75% and Lending Facility (LF) rates at 4.25%. The decision is consistent with the need to maintain exchange rate stability and control inflation, together with efforts to revive economic growth despite a build-up of external pressure, particularly the geopolitical tensions between Russia and Ukraine as well as sooner-than-expected monetary policy normalisation in advanced economies.
