### Market Commentary

Generali Equity recorded performance +4.32% in March 2022. The JCI recorded a performance of +2.66% mom in March 2022, rising from below 6900 to above the 7000 level. The positive performance this month could be attributed to the following. Firstly, the surging commodity prices positively influenced the Indonesian economy, as reflected in several rising sector indexes (i.e., Energy 11.85%, Industrials 6.78%, Technology 6.76%, Raw Goods 6.14%). In addition, there is an abundant positive sentiment from the listing of many upcoming IPOs (including GOTO). The growth in the Indonesian stock market could be represented by these shares from various sectors (e.g., ADMR 83.20%, ASII 13.36%, EMTK 18.36%, TPIA 11.91%, TLKM 5.35%, AMRT 39.45%, BYAN 15.45%, MDKA 17.05%, INCO 24.07%, ADRO 14.44%). This encouraging outlook may have attracted more investors. Secondly, the easing of social distancing restrictions (from level 3 to level 2) for the upcoming holiday period may have helped increase capital mobility. Thus, these two factors may have contributed to the positive stock market.

### Market Commentary

Generali Money Market recorded performance of +0.20% in March 2022. The BI Board of Governors Meeting agreed on 16th and 17th March 2022 to hold the BI 7-Day Reverse Repo Rate at 3.50%, while also maintaining the Deposit Facility (DF) rates at 2.75% and Lending Facility (LF) rates at 4.25%. The decision is consistent with the need to maintain exchange rate stability and control inflation, coupled with efforts to revive economic growth despite a build-up of external pressure, particularly the geopolitical tensions between Russia and Ukraine.
