Market Commentary

Generali Fixed Income Short Duration recorded performance of +0.43% in February 2025. In January 2025, the 5-year Indonesian government bond yield fell from 6.821% to 6.749%, while the 10-year yield decreased from 7.102% to 7.039%. The Federal Reserve (FED) retained its benchmark interest rate at 4.25%-4.5% in February 2025 due to economic uncertainty, inflation control and financial stability reasons. The Indonesian market faced economic turmoil due to the US trade war, but there were new government initiatives and central bank policies aimed to support the domestic bond market, fostering growth and strengthening investor confidence. These factors might have encouraged investment into safer assets and attracted foreign capital into the domestic bond market (foreign net buy of about IDR 9.85 trillion mtd). Meanwhile, the BI maintained an interest rate of 5.75% to maintain low inflation, maintain exchange rate stability, and stimulate economic growth amidst a high uncertainty environment.
