Market Commentary

DPLK Generali Equity Bravo recorded a performance of -10.09% in October 2026. Indonesia's stock market extended its sell-off in October 2026, with the JCI plunging 16.7% month-on-month to close at 5,057.05, stretching the year-to-date loss to roughly 41.5%. The slump was driven by concerns over a possible MSCI downgrade from Emerging to Standalone Market, plus mid-month selling ahead of the IDX policy excluding 81 High Shareholding Concentration (HSC) stocks from index weights. The index crashed nearly 15% in the week of 12-16 October. Foreign investors stayed heavy net sellers, with outflows of about IDR 3.05 trillion in the final week. Foreign buying shifted away from heavyweight banks such as BBCA, BMRI and BBRI toward commodity and mining counters.
